THE DEMOCRATIC CONVENTION;
BALLOTING MAY BEGIN TODAY**

(International News Service.)
SAN FRANCISCO, July 1.—The democratic national convention may yet undergo a seige from the militant suffragists, who were called into session today by Mrs. Abby Scott Baker to consider what steps should be taken toward forcing the convention to bring its weight to bear upon executives of democratic states in order that the suffrage amendment may be ratified in time to permit women to vote in primaries to be held in eight states in August.

The women of 17 states have divided as to what course should be taken.

WOMEN RALLY TO
DEMOCRACY'S BANNER

One of the outstanding political
facts of today is that the women of
the United States look with more
favor upon the Democratic than upon
the Republican party. This is not due
altogether to the superior recogni-
tion given to the suffragists by the
Democrats, nor to the masterly gen-
eralship of Homer S. Cummings, na-
tional chairman. Nor can it be at-
tributed to the great fight which Pres-
ident Wilson has led for the ratifica-
tion of the Susan B. Anthony amend-
ment by the thirty-sixth state. Cer-
tainly the Solid South, which looks
upon woman with a more chivalrous
attitude than does the remainder of
the nation, has not won party favor
with the sex through its hesitancy in
espousing the Cause.

Patently, the American woman is
a Democrat because she believes in
what the party stands for. She is a
Democrat in spite of the political af-
filiation of her husband. She is a
Democrat because woman has a finer
sense of justice than has man. And
because her well developed sympathies
are for the under dog. She realizes
that the Democratic party is the party
of the masses; that it leans towards
the common people; that it has
a heart as well as a conscience; that
it places humanity above money. And
because withal she is fashioned from
finer clay than is her mate, she looks
upon life from a higher standpoint.

The Republican party is a capital-
istic party. Its nominee is a man
whose chief asset is the no doubt
well-founded belief that he will be
subject to the beck and call of the
plutocrats. He was chosen, months
in advance of the Chicago convention,
because Boies Penrose knew that he
could be depended on to obey com-
mands. But for the Civil War, there
would be no Republican party of to-
day. It has been fostered and kept
alive by sectional prejudice and the
frequent waving of the bloody shirt.
With changed conditions, with the
Mason-Dixon line obliterated by the
World struggle, with woman coming
into her own as a political factor, the
continued triumph of the Democracy
can be safely predicted.

It is now generally conceded that
if Hugh Roberts, the Age-Herald's
staff man at San Francisco, were the
democratic convention that Senator
Oscar W. Underwood of Alabama
would undoubtedly be the presidential
nominee.

The Alabama Power Company
seems to be under the impression
that Albany and Decatur are suburbs
of Huntsville. Under the present ar-
rangement, when the high powered
transmission line goes out, the Twin
Cities are to have what current is left
over after the Madison county capi-
tal has been all lit up.

The poultry show last year was a
big success. Co-operation with the
Tennessee Valley Poultry association
will make the one this year surpass
it.

When the nominating speeches are
concluded, the democracy will be con-
vinced that there is no necessity for
the conservation of presidential tim-
ber.

There is real humor in the selec-
tion of alleged humorists as politi-
cal newspaper dopesters at San Fran-
cisco.

Until the nation finds out whether
it's to be McAdoo or Cummings I
isn't especially interested in "Babe".
Bath does get two homers a one day.

Anderson Junior suggests that
the boys in the army should be
given a day off for the Fourth of July.

Most of the worry in regard to crop
conditions appears from present an-
gles to have been wasted emotion.

Mr. Bryan seems to be afraid that
his party will soon be being through
a Glass platform.

Senator Harding, the republican
presidential candidate, isn't even a
successful son-in-law.

Former Speaker Clark can be de-
pended on to Champ his bit.

Ten candidates in eight hours is a
fairly good nominating record.

JUST IN PASSING

MEDALS READY

Col. George C. Saffarans, army re-
cruiting officer for the district of
Alabama, headquarters in Birming-
ham, has been directed by the war de-
partment to receive applications for
the Victory Medal from those entitled
to it, he writes The Daily. The Med-
al, which will be issued gratis is of
beautifully tone bronze, designed by
the celebrated American sculptor,
James Earle Fraser, of New York.

In addition to the medal there have
been designed thirteen combat or ma-
jor operations clasps, a defensive sec-
tor clasp and a clasp for
troops serving in the A. E. F. and
not entitled to battle clasps. These
clasps are set on the ribbon from the
top down according to date of battle.
In the event an officer or soldier en-
titled to the medal was killed in ac-
tion, or has since died, the medal will
be issued to his nearest of kin.

All officers, soldiers and nearest of
kin of deceased ex-service men will
make application on the forms pre-
scribed by the Adjutant General of
the army, to the nearest post, camp
or station, or to the nearest army re-
cruiting station. These forms will be
sent upon application to those
requesting them. When request-
ing these forms the applicant will
state his status or rank at the
time of completion of the service for
which he claims the medal, that is—
whether an officer or enlisted man.
For those living in Alabama or vicin-

ity the United States Army Recruit-
ing Station at Birmingham will
handle the applications, or they may
be sent to the Auxiliary Recruiting
Stations at Florence, Decatur, Gads-
den, Anniston, Montgomery, Dothan,
Mobile, Alabama or Pensacola, Flo-
rida.

Relieves Graves

Fred B. Graves, well known Louis-
ville and Nashville passenger locomot-
ive engineer, has returned from a
well earned vacation. During Mr.
Graves' absence his "run" was taken
by Frank Jose, another popular
Louisville and Nashville engineer.
Mr. Jose filled the responsible role of
driver of the big passenger trains
very successfully. The passenger
runs from here are among the most
important on the L. & N. system and
Mr. Jose is being congratulated by
his many friends on the manner in
which he maintained the difficult
schedule.

COUNCIL
MEATS

Better Meats That Cost Less
No Waste · No Ice Needed
Always Tender
Ready-Cooked To Perfection

Meats Aren't High—if You Know
How to Buy them.

If you could lower your meat bill 15 to 25%—it
would seem like old times—wouldn't it? Well, you
can, and have as good or perhaps better meat than
you are now getting—by cutting out the cost of the
waste and trimmings for which you pay. The way to
do it is to buy cooked Council Meats.

Why are they cheaper than uncooked meats? Only
because Council Meats are fine, tender, prime meats
and nothing else—no waste, no trimming. And besides
much of the weight of uncooked meat is water—water
that is lost in cooking—goes off in steam.

Yet you pay for that water at the price of meat. Being
cooked, there is no excess water in Council Meats.
They're all meat—meat you can eat—no shrinkage.

That's why their use will lower the meat bill at least
from 15 to 25%. And remember, only choice, fine,
tender cuts skillfully cooked and seasoned, are used for
Council Meats. Start saving today.

Head off the Milk Slump

No wonder Mrs. Cow is crying for help. Milk-making materials, especially protein, are becoming scarcer every day, as pastures dry out. A cow can't any more keep up her milk production without protein than you can build a fence without posts.

A cow can't produce milk that is lacking in protein, so she produces less milk.

Feed Purina Cow Chow

Cows on pasture are sure to let the milk production slide down unless a balanced concentrate is fed. With a good cow a gallon of Purina Cow Chow during July should make one and one-half gallons of extra milk.

Double Affection.

Elsie was proud and much excited over a pair of new shoes and while calling on a friend could think and talk of nothing else. To get her interested in something else, the woman at whose home she was visiting tried to take her up to an elephant made of teakwood, about a foot high, looking rather real. Baby was much afraid at first, but went nearer trembling as she went along. Finally she put her little hand on his head and, finding him harmless, put both arms around him and cried out in astonishment and joy: "He loves me—he loves my shoes!"

How Many Miles From a Cord Tire?

Men are everywhere telling remarkable tales about mileage from Miller Cords.

But remember that mileage varies with conditions. Size and load, road and care affect it.

One man who has sold and watched many thousand Miller Tires says this:

"I find that Millers excel other tires in service from 50 per cent to 75 per cent."

The Hudson Taxi Co. of Detroit reports a 15,000-mile average on rather heavy taxis.

Tread Patented

Center tread smooth with suction cup, for firm hold on wet asphalt. Geared-to-the-Road side tread means like cogs in dirt.

The Eldorado Stage Co. of Los Angeles, after long comparisons of 22 makes, say that Millers excel all.

Factory Tests

Miller factory tests, which are severe, last year showed a rear-wheel average of 15,000 miles on Cords. They proved that Millers, with rare exceptions, outwore every tire compared.

They proved the new Miller tread the best of all treads by 25 per cent.

Test one for yourself. It will give you new ideas about tire mileage. It will, in all probability, break all records on your car.

Miller experts in ten years have done much to serve you. For your own sake, learn what they have done.

STAMPEDE IN AIR

(International News Service)
SAN FRANCISCO, July 1.—A feeling of stampede and storm hung heavy in the air today as the delegates filed into convention hall. Rooters for Wm G. McAdoo were predicting his nomination by Friday night and not later than the sixth ballot. The two other leading candidates, Palmer and Cox, were not listed quite so high in the batting average as they were yesterday morning. Claims were being made this morning that there had been a considerable change overnight. McAdoo supporters claimed that both Cox and Palmer had lost to McAdoo.

WASHINGTON, June 1.—Reports of an agreement on the league of nations plank at San Francisco are not to be regarded as a victory for Senator Walsh, it was declared today by those in the confidence of the President, who said that he had always favored "interpretive reservations".

ALBANY LEADING IN RELIEF DRIVE ORY IS INFORMED

Albany has forged into the lead in the Jewish relief drive, according to a telegram of appreciation received by S. E. Ory, Albany chairman, from Simon Gassenheimer, state chairman at Montgomery.

Mr. Gassenheimer expressed his appreciation for the cooperation in the drive of all citizens. His telegram follows:

S. E. Ory,

Albany, Ala.

Congratulations on good work you are doing. Glad to know that non-Jews are giving you good support. Your report now puts Albany in the lead up to noon today. Glad to have you embrace all the nearby towns and appreciate your interest and cooperation. Best wishes.
Simon Gassenheimer.

Italian Reds and Soldiers Clash; 400 Are Killed

(International News Service)
LONDON, June 30.—Four hundred Italians have been killed in two days' fighting between anarchists and troops at Ancona. The general strike at Rome has been called off, said a Rome dispatch today.

New Zealand

Discovery of the island of New Zealand is attributed to Tasman in 1642, but exploration did not take place until the time of Capt. James Cook, 150 years later, while colonization was delayed until 20 years before the American Civil war. Colonization resembled the settlement of the American colonies in that settlements were made in half a dozen places instead of being promoted from a central base, according to the usual British method.

LOCAL KIWANIS PLAY MAGIC CITY CLUB THURSDAY

Klopton's Kiwanis Ball team, after their victory over the Huntsville Braves were so elated that they challenged the Birmingham Kiwanis Club for a game, and announcement was made today that the latter club had accepted the challenge, and would meet the local team here on Thursday July 8th.

It is expected that a good game will be played, for the local club has an unusually good base ball team of its kind, and the Birmingham team, although they stated they had not played any games yet this year, are expected to have a good team, and a strong fight is expected to be put up for the Championship.

Further details of the game will be announced later.

Athens News

Mrs. Crockett, nee Miss Fannie May Mason, of Birmingham, is visiting her friend, Mrs. Anna Frierson. She will be cordially welcomed in Athens, as it was the old home of her father, Mr. Wyndom Mason.

The officers of the civic league met Mr. Scatcher, of Auburn on Wednesday in regard to plans for beautifying the court house yard.

PROFITEER'S FATE SERMON SUBJECT

EVANGELIST DENSLAW TELLS OF THE RESPONSIBILITY BROUGHT BY RICHES

"It is no sin to be rich, but the possessing of riches brings with it a very great responsibility," said Evangelist Oliver L. Denslow in his lecture last night entitled "The Fate of the Profiteer" at the Bible Chautauqua Tent. The tent was well filled despite the fact that it was stormy. The beautiful music, made possible by the courtesy of Kelly and Hawk Co. placing one of their Pathe "Aetulle" machines in the tent, was much enjoyed by all.

Continuing, Mr. Denslow said in part as follows: "In 1912, the total wealth of this nation reached the stupendous sum of 150 billions of dollars, or if divided equally between every man, woman and child in the nation, each would have the nice amount of \$1,500 for the proverbial 'rainy day'. But, who controls this huge sum of wealth? Whereas, a few years ago 100 men held 1 per cent of the wealth, now 1 per cent of the populace of the United States controls 99 per cent of the wealth. The prophet Isaiah was informed of conditions when he penned the words recorded in his book, the second chapter and seventh verse: 'Their land also is full of silver and gold, neither is there any end of their treasure; their land also is full of horse, neither is there any end of their chariots.'

"Now, the question in our minds is: How do they get it? and What do they do with it? Paul tells us that the 'Love of money is the root of all evil.' So, the fact that one possesses riches is in itself no evil, but the love of it. In 2 Timothy 3:1-2, Paul again gives us a view of the characteristics of men in the last days. Truly, it looks as tho we were in the last days now as we compare this account with conditions as they are today.

"Now, What are men doing with their riches? They are 'living in pleasure', so we are told in the fifth chapter of the book of James. Did we every see a time when the whole world was as pleasure-mad as they are today? When we see thousands of dollars spent on a fashionable dance in one of the magnificent hotels of New York or Paris, when within the shadows as it were, of that ball room, thousands are going to bed hungry. Does it not impress us with the truth that it is a great responsibility to possess riches?"

In closing, Mr. Denslow exhorted the congregation to be patient unto the coming of the Lord, for the character that will stand the test is developed in the day of adversity.

The subject for tonight is "Christ Our Saviour."

What Is a Station to Station Long Distance Call?

On station to station calls the person originating the call does not specify a particular person to be reached, but gives only the number of the telephone called or, the name or address under which the telephone is listed.

The station to station rate is, and properly so, less than the rate for the person to person call. The company can, unless through its own fault, always reach any station desired connected with its system, while it cannot guarantee that any particular person desired will be at the station to talk.

Therefore, a station to station call represents a minimum effort and cost to the company in establishing a telephonic communication between any two stations at distant points, and it is both logical and right that this rate should be relatively lower than when the company must do other things at the request of the patron, such as not only getting a station connection, but also locating and getting a particular person to the telephone.

The evening rate on station to station calls made between 8:30 and 12:00 midnight is one-half the day rate. The night rate on station to station calls made between 12:00 midnight and 4:30 a. m. is one-fourth the day rate.

Report charges are not made on station to station calls.

If there is anything about our rates and practices you do not understand, call the business office and we will be glad to explain the whole details to you.

LAST HOURS OF CONVENTION REVEAL UNSUCCESSFUL FIGHT ON THE LEAGUE OF NATIONS

Editor Albany-Decatur Daily:
Dear Sir:

The last hour of the American Federation of Labor convention was its most important one in an international sense. But as not more than half of the delegates were in attendance, the discussions within that hour should be described as "individual" rather than "representative."

Led by the teachers' representative delegate Lefcokisky, what was shrewdly described as the "Anti-English" element, made a desperate effort for the defeat of the League of Nations covenant. And had they done so a victory could also have been claimed for radical socialism.

At least this is the prevalent belief among well-informed delegates, and the debate which was by all odds the most earnest of the whole convention bears out their contention. The fight was forced by the anti-League, who as the time of adjournment drew near, made persistent inquiry, "Where is the League of Nations Resolutions?" When that resolution was read and it appeared that the executive Council of the A. F. of L. unanimously recommended the reaffirmation of the stand taken at the Atlantic City convention last year—which upheld the League Covenant, Teacher Lefcokisky who is credited with being an A. B. of New York University, and as also holding a Ph. D., presented all the stock arguments against the league, saying in effect also, that it would mean world domination by Great Britain. Professor Lefcokisky was backed by a delegate reported to be from Seattle, Wash., who made a bitter attack on England, one of the main supports of which was a map he displayed of Africa showing how England now holds and would hold under the League, all of the colonies held by the German Imperial Government prior to the war. All the anti of the League declared that it "was a war breeder" and would cause a war much more destructive than the last one. A stout Bostonian, who declared two of his sons were in the war spoke; evidently thinking that to in-dorse the League would deny Ireland ever becoming a Republic. The substance of these three speeches was long drawn out, and all three delivered in a most impassive manner—far surpassing in heat any of the previ-

ous speeches of the convention. When these speakers had finished, had the vote been taken then, some think the League would have been defeated. It seemed in vain that George W. Perkins, Chairman of the Executive Council Committee, and Mathew Woll, fourth vice-president of the A. F. of L., and a very brainy man, had stated that only "external" aggression was forbade in the League, "internal" affairs were not touched on in that covenant.

In vain did these able men show how numerous new nations had arisen since the war, and that Ireland's status and the stand of the Federation for Irish Freedom remained untouched.

Max Hayes, the leader of the Typographical International Union, made an appeal for the League and he pointed to the flags of the United States, of France and of England, as they hung over the stage said, "None but free men live under those flags," and declared that democracy was safe as long as those three powers were in power. Mr. Hayes's appeal might have availed had the vote been taken after his speech, but it is doubtful. It is also doubtful as to whether the appeal of President Samuel Gompers for the League and his great generalship against the world-wide big Union ideas, and the extreme socialists, would have saved the League.

In passing, the stroke Gompers made against the Bolshevici socialists, in the League debate, was one of the big features of the convention. There had been murmured dissent from the radical element when Mr. Hayes had declared, that "none but free men" lived under the flags of England, France and the United States. Professor Lefcokisky and his followers had said all along that only a world-wide Union of the proletariat could make a League of Peace that would last. And Mr. Gompers evidently had in mind what this element had said when with a broad smile he took up the Montreal Evening Star and read where Emma Goldman declared that the Red's efforts "were all rot."

Then wearing another big smile of satisfaction Mr. Gompers proceeded to hand out the stock and trade of arguments against socialism. It is quite possible that the arguments and appeals as made by Messrs. Gompers, Hayes and Perkins would not have availed for the league according to statements of impartial observers.

It was the appearance on the floor of William Green, ex-United States Senator and Secretary and Treasurer of the United Mine Workers of America that turned the tide of battle. When that pleasant faced, straight-thinking and most lovable man many seemed to think, took the floor to support the executive committee of the A. F. of L. in favor of the League there was a hush so distinct that you could hear it.

Was not Green representing the most powerful organization of the Federation? Had his "outfit" not more than once in the convention spelled defeat for many fond dreams and aspirations.

But as he stood with all these things in the minds of the delegates the battle had not yet been won. It remained for Mr. Green to make a most convincing, eloquent and patriotic appeal before his friends were willing to call for a vote on the League of Nations resolution. This speaker was interrupted by the delegate reported to be from Seattle, Wash., and who had displayed the map of Africa by a complimentary reference to Senator Lafollette to which stalwart Green replied, "Senator Lafollette does not have a very enviable reputation." In a word Green's speech was a complete reput-

Stomach is quick to upset—Dr. Caldwell's Syrup Pepsin will bring prompt relief and comfort

THE depressing heat makes many women careless of their health. The housework becomes extra tiresome and the hot kitchen adds to their discomfort. They eat cold foods and iced drinks with the result that the stomach is soon upset, and constipation follows indigestion.

It is well to know that there is a remedy that brings quick relief. It is called Dr. Caldwell's Syrup Pepsin, and you can find it in any drug store. It is a combination of simple laxative herbs with pepsin that acts on the digestive organs and soon rids the bowels of its accumulation. Take a spoonful of Syrup Pepsin at night and the congestion, headache and feverishness will be gone in the morning. You will then stand the heat with comfort.

There are thousands of women in this country who do not use anything else in these emergencies but Dr. Caldwell's Syrup Pepsin. Miss Bart, of 1045 Watson St., Grand Rapids, Mich., relies entirely on Syrup Pepsin, and the people

Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 512 Washington St., Monticello, Ill., for a free sample bottle of his wonderful Syrup Pepsin. 8 million bottles were bought at drug stores last year, the largest sale in the world.

Garth Heights

Garth Heights contains 1200 acres of land which begins on the Danville Pike just three blocks from Moulton Street and the car line, and scarcely a mile from the center of Albany. Moulton street being paved with asphaltic concrete, gives a splendid automobile road all the way to the site.

As can be seen from the map, the Moulton pike touches these lands on the west side, and with thirty foot right of ways reserved thru Garth Heights from East to West and from North to South, it gives every tract of land, large and small, an outlet to both pikes.

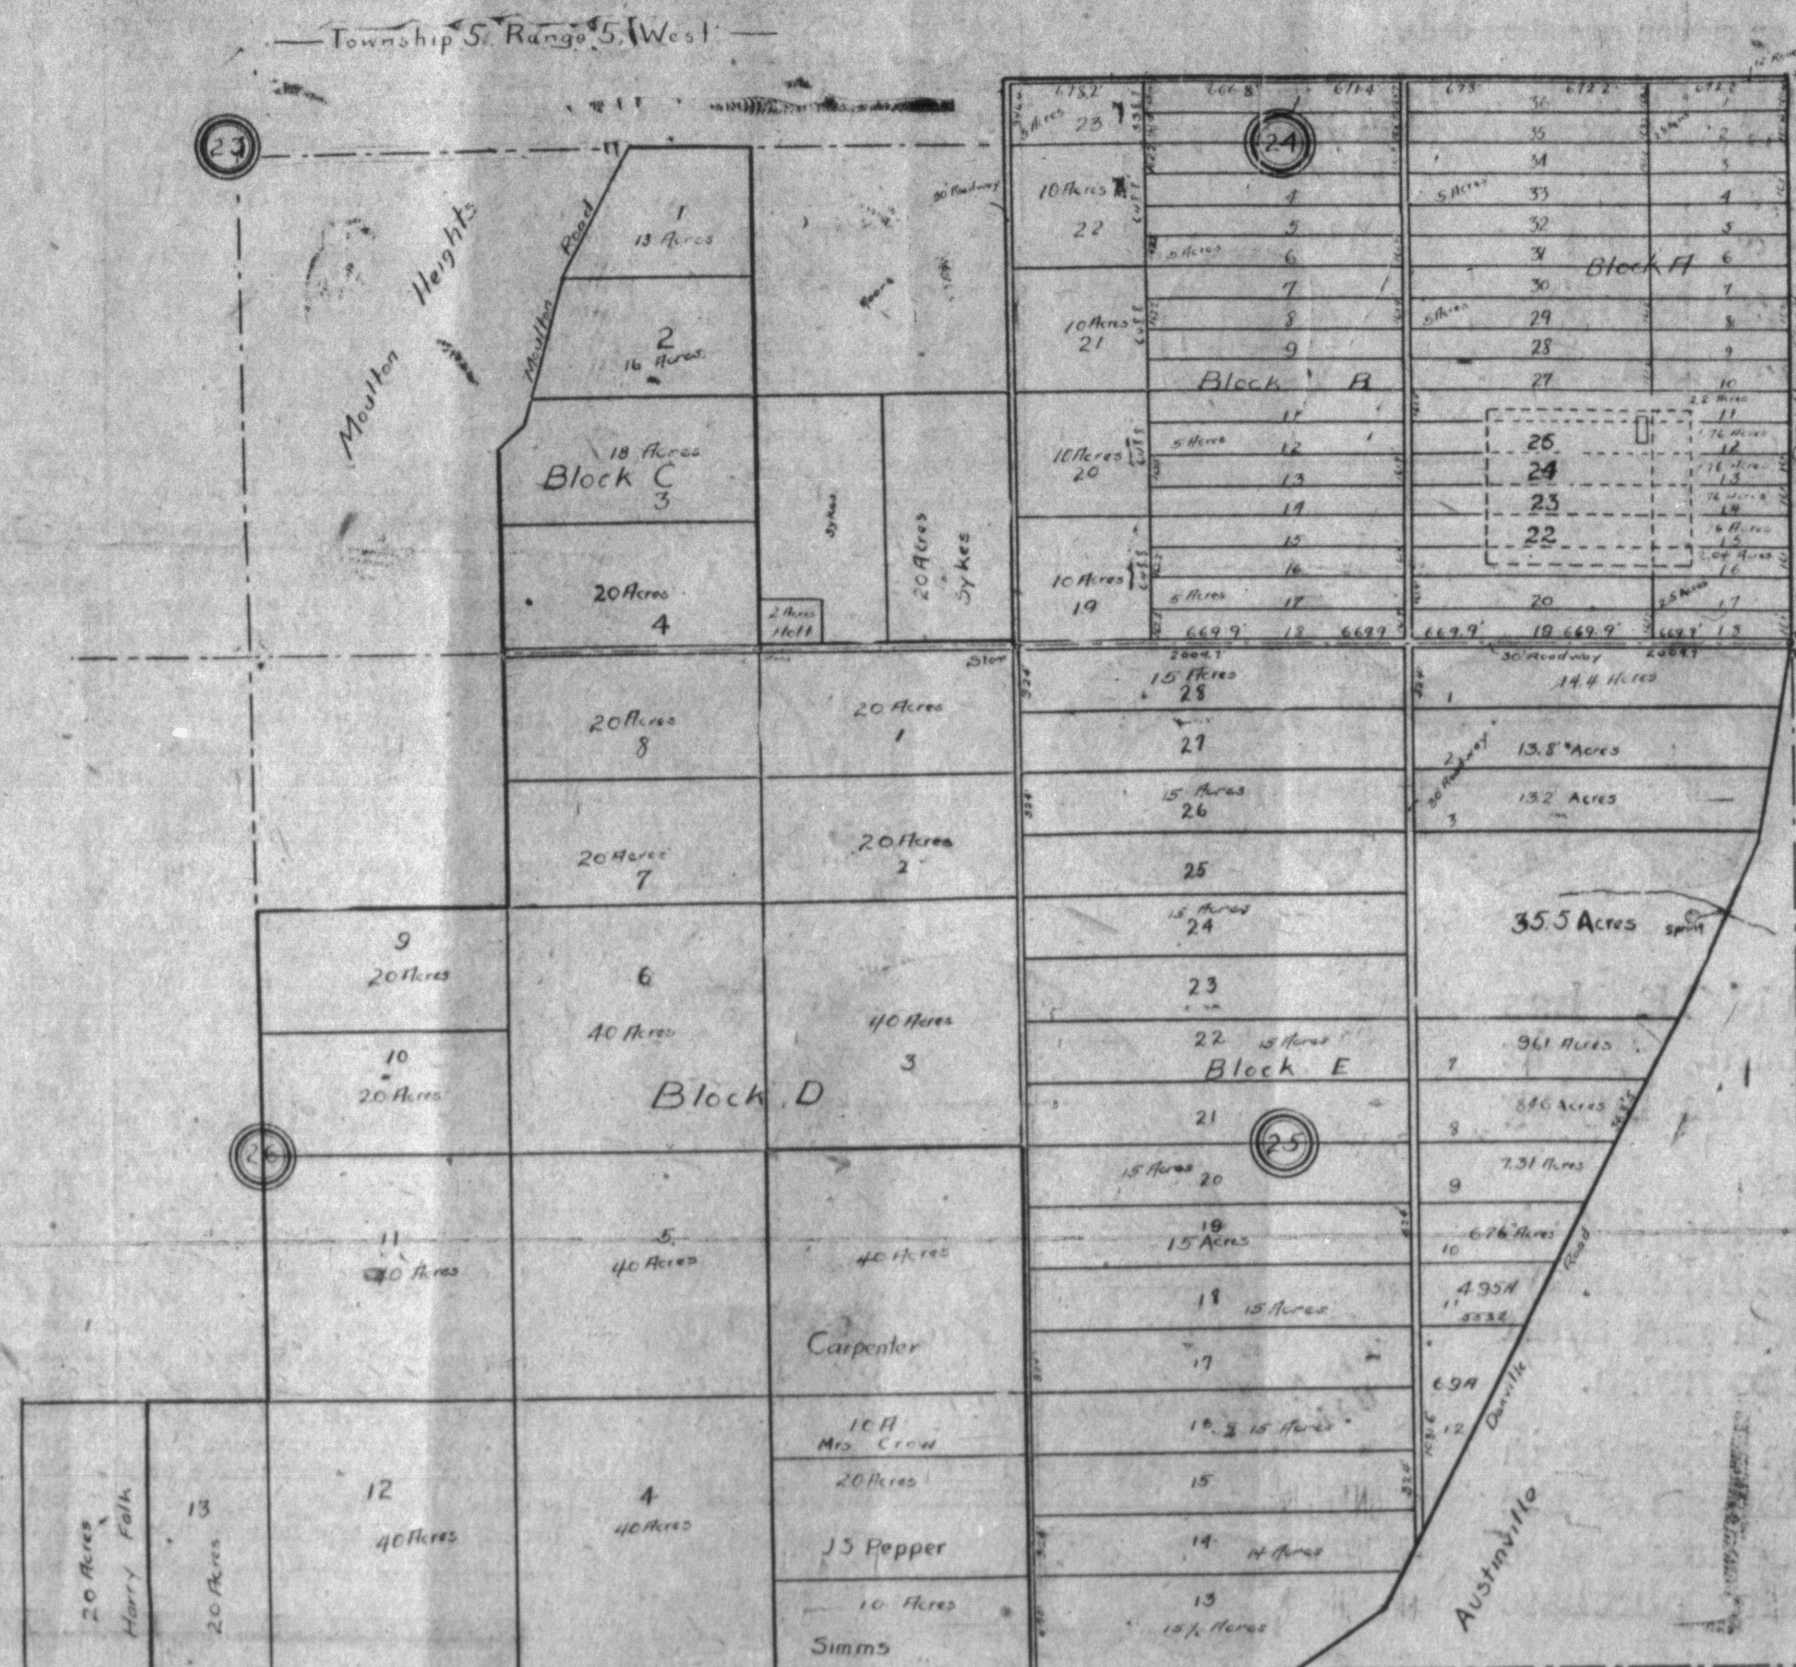

When the traction company completes their lines to Austinville, the natural and logical course will be down the Danville Pike from Moulton Street to Austinville and back by way of South Albany. This will give Garth Heights one and half mile frontage on car line. The West Albany ward school is in plain view of Garth Heights, and only four city blocks separate them.

Never has there been nor never will there be again, offered just such an opportunity for investment in residential property near Albany and Decatur. As seen by the map, there are 18 1/2-acre tracts fronting the Danville pike, 36 5-acre tracts overlooking the 2 1/2-acre tracts from a little higher elevation and fronting on a 30 ft. street, then to the South and to the West of the 2 1/2 and 5-acre tracts are 10-15-20 and 40 acre tracts, some of these fronting on the Danville pike, and others on 30 ft. streets.

Tract No. 4-6, known as the Garth Spring tract, contains 35.5 acres. Garth Spring is known as one of the best freestone water springs around Albany and Decatur. The water comes out from under a little rise or hill near the Danville road, and the spring tract is so layed off as

to have 190 ft. frontage on the Danville pike. The Spring branch drains off thru several acres of natural pasture, unsurpassed for cattle and hogs, while the elevated lands above the spring afford a most wonderful building site.

The soil of the Garth lands is typical North Alabama red dirt and the place was settled by Gen. Jesse Garth in the year 1817, and has remained the property of his heirs and descendants every since. There are approximately five hundred acres adjoining Albany, cleared and in cultivation, the remainder is practically the same nature of land with the exception that it has a young growth of scattering timber, which can be easily and cheaply cleared away. The entire twelve hundred acres are drained by a small creek that traverses the body from west to east and finally empties into the Tennessee River near Decatur.

Mr. Investor

The cost of building has increased to the extent that it does not pay any more to build on a fifty foot lot in a congested part of town. The high cost of living is best solved by owning sufficient ground about your house to raise your own garden truck, your own chickens and eggs, with ground sufficient to raise their feed and ample room for a cow to furnish butter and milk for the family.

People no longer want to raise their boys in the street. A fifty foot lot is too small for any boy unless he is sick enough to go to bed. Learn a boy to work when he is small and he will never forget it. The best way to do this is to furnish him with a patch of ground to work in and see to it yourself that he works. So invest your money in a 2 1/2, 5 or 10 acre tract at Garth Heights, and if you cannot use it yourself, dollars to doughnuts that you will realize a handsome profit before you have finished paying for it, providing you take advantage of our terms of one-fourth down and balance in 1-2 and 3 years.

Will be opened to the public and placed on the market at public outcry. Twelve hundred acres of the most fertile land in the Tennessee Valley, adjoining the corporation of Albany and overlooking the City with a picturesqueness not to be had from any other Suburban point.

MR. FARMER:

You have striven hard in the past. You have put up with the hardships of country life and as a reward, you have made some money and have accumulated valuable things around you. The time has come now when you begin to want to slow down, you cannot stand the hard physical strains that you once could stand; besides, your children are getting up to where you aspire for them a better education than the rural districts afford. The solution is, sell your farm, which will bring you a good price, to a younger man, and buy yourself a 2 1/2 or 5 acre tract at Garth Heights; then if you want a small farm in connection, just step back a little further in the tract and buy 15 to 40 acres at a lower price per acre.

MR. CITY DWELLER:

What are you going to do when things do not go to suit you in town? Are you going back to the country, and deprive your children of educational advantages? If you were raised in the country, you, no doubt, often think of the good things you had in the country that you do not have in town, and yet, you have become accustomed to certain conveniences incidental with City life that you would regret to give up. The solution of the problem is, buy a lot at Garth Heights and you have the combination that fits you.

THERE IS NO SAFER INVESTMENT IN THE WORLD TODAY THAN REAL ESTATE INVESTMENTS, AND THERE IS NO BETTER REAL ESTATE THAN SMALL SUBURBAN TRACTS.

HITS AND MISSES

By BARRETT SHELTON

The Albany-Decatur outfit will use Watkins to receive the vicious slants of the local pheon. The last game Jacobs hurled was with the alleged Hartselle team which didn't arrive and the local crew did not have to extend themselves for that. All be out and see Albany-Decatur make it five straight tomorrow at 4 p. m.

Moulton will be the victims here on July 5 in celebration of the traditional fourth. The games begin at 2:30 p. m. and go as long as either team wishes or as long as the spectators wish to remain. Plea will be made before the grand jury if the Moultonites refuse to give the fans a look at their ability in fracas No 2. Last July 4 this same crew came over from the hills to do battle against the Baker, Barnes, Steadman, Mitwe combination and being so badly cast down in the opener refused to go on with the contract.

This will also be the memorial day for a certain heavy that got his before the punches of Champ Jack last fireworks day.

The St. Louis Cards are very much like the Hun drives on the Allies. The allies crumbled before the attack and the Germans rushed on but the Americans arrived and Hundom fell by the wayside. The Cincinnati Reds are evidently trying to throw the name they have been given away and showing the U. S. that the "Red" is not Bolshevik. St. Louis busted every thing up to get at the Reds and then got it in the neck before the Moran onslaught.

Carpentier-Levinsky Bout on

According to Jack Curley, who made the match and Danny Morgan, manager of Bat Levinsky, the Carpentier-Levinsky bout, originally scheduled for July and later postponed until the French champion returns to this country next Fall, is on for sure.

Curley recently stated that regardless of Dempsey's ultimatum to Carpentier and Carpentier's challenge to the champion, following his acquittal of slacker charges at San Francisco, the Levinsky match will be Georges' first in the United States.

Curley plans now to stage the bout in New York, as by next Fall the mitt game will be flourishing in the Empire State. Morgan says that the bout will surely take place here, either in October or November and points out that as the Frenchman is under contract to meet the Battler first of all he will go through with his agreement.

"Carpentier should be given a test by a boxer of Levinsky's calibre before he can be expected to get into the ring with Jack Dempsey," opines Morgan. "If he can whip the Battler then he will be entitled to a whirl at the world's title."

The Indian lead was cut to half a game yesterday while the Yanks trounced twice in Philom the Indians were getting there's in a slugger match with St. Louis. Doc Johnston, one time Baronal support, also put the Ruth trade mark on one for the circuit.

The local Dutch Boy hit for a total of four sacks at one blow yesterday and it is well that he did for it was his only safety of the contest. Mitwe has been playing excellent ball for the past month and is rarely credited with a mark in the last section of the official score.

The Chicks are very much like Tennyson's "Charge of the Light Brigade". The only squawk of the Chick outfit nowadays is "Half a league, half a league half a league onward" The only difference is that the Chicks are not riding onward but the four big boys ahead of them continue at a terrific clip and Uncle John McCloskey is unable to put the spurs to his gang fast enough.

The mighty Babe made a last effort to overcome his last season's mark yesterday in the twin bill against the Phils. For the work of the closing month Babe picked out two and larruped them out toward the fence where they were wafted on by sweet evening breeze. They have not yet been located and Ruth's total stands at twenty-four and two months and half yet to shove his shoulder into 'em, you may lay five to one that before the final on July the total will be well beyond the 30 goal set by Babe.

AMUSEMENTS

"MARY'S ANKLE" TOMORROW

He was a promising young doctor, but he lacked patients and his closest chums refused to accept his pills, even when they were offered for nothing. Then fate threw a rich uncle and a pretty girl with a sprained ankle across his path, and things began to hum. That's the situation in "Mary's Ankle," the latest Thomas H. Ince picture starring Douglas MacLean and Doris May and coming to the Princess Theatre today. It was adapted by Luther B. Reed from May Tully's well known stage farce of the same name.

Local screen fans will remember the hilarious hit which these youthful comedy stars scored in "Twenty-Three and a Half Hours' Leave."

Cry of Germany Is For Food, Writes

(Continued from Page 1.)

aces on the train could be seen no longer. We inquired what it meant and were told that the death rate in Germany of children from 1 to 10 years was 50 per cent. Think of it. And that these children were enroute to Switzerland to be fed and kept until times were better; that milk was a necessity to children and that milk was an impossibility to get—and we had chocolate for breakfast, but never again in Germany—that the cattle have been killed down pretty close to feed the army and that since Germany had been required to send so many head to France, Belgium and even Serbia and on top of all that some disease had broken out and killed nearly all the balance. The children are being sent by the thousands to Switzerland, Denmark and Sweden.

Want Food

I wondered if the result would be denationalization of them, sorter growing up without a country. They said "this is the root of our trouble. If we had food we could work. Germany knows how to work, but she can't do it when hungry. France wants coal from the saar valley, let her send 1-2 pound bacon for each ton and she will get the coal." Then we came on to Berlin, through a beautiful agricultural country, with men and women and children working in the fields and every inch planted. So many fields of wheat, I asked if after the harvest the shortage wouldn't be over, to be told that Germany never fed herself even when she had Poland, her great wheat fields and now it was an impossibility.

Then we got Berlin and it was like a magician's wand. Everything had changed.

Shops Filled In Berlin

Beautiful shops, filled with wonderful goods. Down in the provinces it had been pitiful to look at the shop windows with the meagre display. Well dressed men and women, streets crowded, cafes, the noted thing of Berlin, crowded. You still see paper table cloths, even at this hotel for breakfast and we only have two towels a day. That is because of the shortage of soap. At the hotel the bread is better, being mixed with flour from America, but no butter.

The bread for the people is the same black stuff and you cannot buy bread or be served at any hotel or restaurant except where you are staying. I wanted some with tea and was offered cake, stuff that tastes something like molasses bread. You remember Marie Antoinette, when the people were howling for bread, asked why they didn't eat cake. It is certainly true here, that you can't get bread but you can get this stuff that masquerades as cake. I am told by an English official here that it is all propaganda to show the world how short they are of wheat, that anybody who wants to pay the price can buy anything, that immense fortunes from profiteering were made in Germany and these newly rich are here in Berlin spending with both hands, they pay anything for what they want, that if the food was properly divided there would be enough. Maybe so, but I think of those gaunt men at Baden with collars so big you could run your hand down and I thought of the women clutching her throat to keep back the sobs, while she waved and smiled, and I didn't know.

AUSTINVILLE SCHOOL ENTERTAINMENT A SUCCESS

An entertainment given last night by the School Improvement League of Austinville was a splendid success, a nice scene being realized with which to make improvements on the school building. Hon. Melvin Hudson and County Superintendent of Education Hays made appropriate addresses. Miss Hester Thompson was awarded the prize for the most popular girl, Harvey Bradshaw being awarded that for men. No one succeeding on the "guess cake" contest, it was put up and sold at auction. The ladies who worked untiringly were rewarded by substantial appreciation of their efforts.
